

IEEE CIFE_r 2012

IEEE Conference on Computational Intelligence for Financial Engineering & Economics
29 – 30 March 2012, New York City

CALL FOR PARTICIPATION

General Chair:

Ronald R. Yager, Iona College,
USA

Program Chair:

Robert Golan, DBmind
Technologies, USA

Treasurer:

Chenghui Cai, Opera Solutions,
USA

Publication Chair:

Adam Ghandar, Univ. Adelaide,
Australia

Liaison for CIFE_r 2013 in Singapore:

Ponnuthurai Nagaratnam
Suganthan, Nanyang
Technological Univ., Singapore

Liaison for CIFE_r 2014 in London:

Antoaneta Serguieva, Brunel
Univ., UK

NYC Venue Sponsor:

Eric Newcomer, Credit Suisse,
USA

CFE TC Representatives:

Shu-Heng Chen (Chair), National
Chengchi Univ., Taiwan
Dirk Van den Poel (Vice Chair),
Ghent Univ., Belgium
Xuezhong He (Vice Chair),
Univ. Technology, Australia

Local Industry Liaisons:

Phillip Bennet, Deutsche Asset
Management, USA
Jan Dash, Bloomberg LP, USA
Roy S. Freedman, Inductive
Solutions, Inc, USA
David vun Kannon, Deloitte,
USA

Meeting Management:

David Jaffe, David Jaffe and
Associates, USA

The CIFE_r Conference is the major collaboration between the professional engineering and financial communities, and is one of the leading forums for new technologies and applications in the intersection of computational intelligence and financial engineering and economics.

Major Highlights

Inaugural CIFE_r 2012 Presentation:

- [Eric Newcomer](#), Credit Suisse.

Keynotes Speakers:

- [Andrew W. Lo](#), Harris & Harris Group Professor of Finance, MIT Sloan School of Management.
- [Paul Wilmott](#), Financial Consultant: “What Quants should do?”
- [Peter Carr](#), Morgan Stanley, New York.

Tutorials:

- [Jan W. Dash](#), Head Strategic Risk Research, Bloomberg LP; Adjunct Prof. Courant Institute, NYU and Visiting Research Scholar, Fordham University: “Risk Management”.
- [Xian Li](#), Rensselaer Polytechnic Institute: “Financial and Economic Data Management using Semantic Web Technologies”.

Industry Aligned Lighting Talk:

- [Spencer Greenberg](#), Chief Executive Officer Rebellion Research.
- [Piero P. Bonissone](#), Chief Scientist Coolidge Fellow, GE Global Research Software Sciences and Analytics: “Commercial and Industrial Applications of Computational Intelligence at GE”.

Invited Award Talk:

- [Vladimir Cherkassky](#)

2012 IEEE Frank Rosenblatt Award Presentation:

- [Vladimir Vapnik](#), Professor of Computer Science, Royal Holloway, University of London.

Panel Discussion:

- Algo Trading Advancements through Computational Intelligence with Finance and Economics.

Honorary Chair:

Tomaso Poggio, MIT, USA

Honorary Program Committee:

Yaser Abu-Mostafa, CalTech, USA
John Birge, Univ. Chicago, USA
Piero Bonissone, General Electric GRC, USA
Bernadette Bouchon-Meunier, Univ. Denis Diderot, France
Mark Broadie, Columbia Univ., USA
Peter Carr, Morgan Stanley, USA
Michel Crouhy, NATIXIS, France
Emanuel Derman, Columbia Univ., USA
Stephen Figlewski, Stern School of Business, USA
David Fogel, Natural Selection Inc, USA
Paul Glasserman, Columbia Univ., USA
Andrew Lo, MIT, USA
Robert J. Marks, Baylor Univ. USA
John Moody, ICSI, Berkeley, USA
John Mulvey, Princeton University, USA
Lei Xu, Chinese Univ. Hong Kong, China

Publicity Chair:

José M. Merigó, Univ. Barcelona, Spain

Keynote, Tutorial, & Poster Session Chairs:

Uzay Kaymak, Eindhoven Univ. of Technology, Netherlands
G A Vijayalakshmi Pai, PSG College of Technology, India

Webmasters:

Rui Almeida, Erasmus Univ. Rotterdam, Netherlands
Viorel Milea, Erasmus Univ. Rotterdam, Netherlands
