

IEEE Computational Intelligence for Financial Engineering & Economics 2014

March 27-28, London, UK

Call for Participation

General Chair:

Antoaneta Serguieva,
University College London, UK

Honorary Chairs:

Ronald R. Yager,
Iona College, USA

Robert Golan,
DBmind Technologies, USA

Program Chair:

Dietmar Maringer,
University of Basel and University
of Geneva, CH

Keynote & Tutorials Chair:

Uzay Kaymak,
Eindhoven University of
Technology, NL

Publication Chair:

Berc Rustem,
Imperial College London, UK

Communications Chair:

Rui Jorge Almeida,
Erasmus University Rotterdam, NL

Treasurer:

Dawn Bailey,
University College London, UK

Venue Sponsor:

Samuel Murray,
Bank of America Merrill Lynch, UK

IEEE-CIS Computational Finance and Economics Technical Committee:

Uzay Kaymak (chair),
Eindhoven University of
Technology, NL

Chenghui Cai (vice-chair),
MQT Investments LLC, USA

Akira Namatame (vice-chair),
National Defense Academy, JP

Webmasters:

Rui Jorge Almeida,
Erasmus University Rotterdam, NL

Vytautas Savickas,
University College London, UK

The CIFer Conference is the major collaboration between the professional engineering and financial communities, and is one of the leading forums for new technologies and applications in the intersection of computational intelligence and financial engineering and economics.

Opening Address:

Academia: Xin Yao,
President elect, IEEE Computational Intelligence Society, University of
Birmingham, UK

Industry: Alexander Lipton,
Managing director and co-head of Global Quantitative Group, Bank of
America Merrill Lynch, UK

Keynote Speakers:

Yaneer Bar-Yam,
Founding President of New England Complex Systems Institute, USA

Michael Dempster,
Founder of Centre for Financial Research, University of Cambridge, and
Director of Cambridge Systems Associates, UK

J. Doyne Farmer,
Co-Director of Complexity Economics, Institute for New Economic
Thinking, Oxford Martin School, University of Oxford, UK

Industry Aligned Sessions, Tutorials and Panels:

Session: Systemic Risk Identification, Modelling and
Monitoring

Chairs: Kevin James, Financial Conduct Authority, UK,
Antoaneta Serguieva, University College London, UK

Tutorial: Functional Elegance with F# for Financial Computing
Don Syme, Principle Researcher, Microsoft Research, UK

Panel: Market Surveillance, Operation and Oversight in Algo
Trading

Moderator: Ken Yeadon, Thematic Capital Partners, UK

Affiliated Event:

Spring School in Computational Finance and Economics
24-26 March 2014, University College London, UK

Important dates:

Special Sessions and Tutorials Proposal 1 October 2013
Paper submission (updated) 24 November 2013
Notification of acceptance 7 January 2014
Final paper submission 7 February 2014
Early Registration 7 February 2014
Conference 27-28 March 2014

Honorary Program Committee:

Yaneer Bar-Yam,
New England Complex Systems
Institute, USA

John Birge,
University of Chicago, USA

Piero Bonissone,
General Electric GRC, USA

Bernadette Bouchon-
Meunier,
CNRS, Université Pierre et Marie
Curie, FR

Mark Broadie,
Columbia University, USA

Peter Carr,
New York University and Morgan
Stanley, USA

Michael Dempster,
University of Cambridge and
Cambridge Systems Associates
Ltd., UK

J. Doyne Farmer,
University of Oxford, UK

David Fogel,
Natural Selection Inc., USA

Andrew Lo,
Massachusetts Institute of
Technology, USA

John Moody,
ICSI, Berkeley and J E Moody &
Company LLC, USA

William Shaw,
University College London and
Winton Capital, UK

Philip Treleaven,
University College London, UK

Edward Tsang,
University of Essex, UK

Xin Yao,
University of Birmingham, UK
